SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Health Standards for Diesel Particulate Matter Exposure in Underground Coal Mines information collection requirements codified in regulations 30 CFR 72.510(a) and (b) and 72.520(a) and (b). More specifically regulations section 72.510(b) requires an underground coal mine operator to keep a record for one year of having provided required training. Section 72.520(a) and (b) requires an underground coal mine operator to maintain an inventory of diesel powered equipment units together with a list of information about any unit's emission control or filtration system. The list must be

updated within seven (7) calendar days of any change. Federal Mine Safety & Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a) and 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0124.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on November 4, 2016 (81 FR 76968).
